

## **Service terms and conditions**

30.9.2019

The genetic resources register service (later “the service”) is a service for making import notifications of genetic resources/traditional knowledge. The service is provided by the Finnish Environment Institute (SYKE).

The terms and conditions of the service are defined below.

The user is granted the right of use the service as defined in these terms and conditions when they have registered in the service and confirmed their registration by an e-mail link. Registration enables you to submit notifications and examine your previous notifications.

SYKE aims to provide correct information in the service without interruptions. However, SYKE is not liable for any damages caused by using the service and the user uses the service and its data at their sole risk. Therefore, SYKE is not liable for any direct or indirect damages that are caused, as an example, by the service or incorrect or faulty data in the service, use of data, third party demands, connection interruptions, data alterations or ending of the service maintenance or malfunction of the service.

These service terms and conditions shall be governed by the laws of Finland. Any disputes related to these service terms and conditions that the parties are unable to resolve between themselves shall, in the first instance, be resolved by the Helsinki District Court.

SYKE has the right to revise these service terms and conditions without the consent of the user by updating the new terms and conditions on the service. Revisions may limit or expand the aforementioned right of use or terminate the right of use.
